

# BUDGET BILLING AGREEMENT

CUSTOMER NAME

ACCOUNT NUMBER

SERVICE ADDRESS

Budget Billing will be available to Residential & General Service customers only. A customer must have a zero balance before initiating budget billing.

The budgeted amount must be paid in full before the disconnect date each month. Failure to keep the account current will terminate budget billing privileges. RMU's budget billing year will run from November 1 through October 31, with the settle-up month being November each year. Residential customers may sign-up anytime during the year. General Service customers may sign up only during the month of December. During the settle-up month, any overpayments by the customer will be refunded to the customer by check; any shortages will be included in the next year's budgeted balance. A customer must have at least twelve months of history at their current address before they can participate in budget billing. If a customer moves, budget billing will terminate at the old address and cannot resume until the customer has

established a twelve month history at the new address.

I desire to sign-up for RMU's budget billing and agree to the above terms.
